- healthy lifestyle

About

I'm a Junior Full Stack Developer focused on building modern, user-friendly web apps. I enjoy creating clean interfaces and solid backend systems. Currently working on personal projects to sharpen my skills and build a strong portfolio. Curious, proactive, and always improving.

Experience/projects

● MiniBlog

react tailwind JavaScript | Express.js firebase , mongodb

MiniBlog is a web app for publishing and managing blog posts, with support for both personal and external content.

● BuzzReminder

react tailwind JavaScript | Express.js firebase , mongodb

BuzzReminder is a task and calendar app that sends automatic email reminders for upcoming events.

Education

2023

● Software Development Academy

JavaScript

Learned the fundamentals of JavaScript, including DOM manipulation, functions, objects, arrays, and event handling, with practical projects to build interactive web applications.

2019-2021

● Ies Azarquel

Telecommunications

Covered basic electronics, networking, signal transmission, and telecommunications systems, with hands-on training in installation, maintenance, and troubleshooting of communication infrastructures.

Work Experience

● SpyShop

Warehouse Worker | 04/2025 | Timisuara Romania

Managed inventory, received and organized surveillance equipment, and prepared orders for retail and online delivery.

● Mediamarkt

seller | 09/2023 - 09/2024 | Spain Toledo

Advised customers on electronics and tech products, handled transactions, and ensured a positive shopping experience.

● Zara - Inditex Group

Stockroom Assistant | 09/2023 - 09/2024 | Timisuara Romania

Organized inventory, restocked merchandise, and supported store operations to ensure product availability and a smooth customer experience.
